ABOUT US

Atlantic Coast Fire Trucks was founded in 2012 by Steve Dill a long time fire service distributor. thanks to the support from our customers and the hard work of our dedicated employees, our business has grown significantly since then.

At ACFT , emergency apparatus is our specialty. We don't sell turnout gear, air packs, and other loose equipment. this allows us to remain focused on one thing: providing our customers with the best-built emergency vehicles in the industry, and keeping them in service with our exceptional service team. This flyer outlines the many services that we offer, thank you for your continued support.

- STEVE DILL OWNER/PRESIDENT
